ARTUR RAMON ART

NURI NEGRE

Biography

After finishing her career in psychology at the university **Nuri Negre** (Girona, 1971) worked as a counsellor. She began studying ceramics and art, such as painting and drawing, as a hobby. She took part in several collective exhibitions and won the first prize at a ceramic art competition. The motherhood made her realise what her real interests and ambitions in life were. She had the opportunity to start working with children, introducing them into the world of arts and crafts, inspired by the educational philosophy of Waldorf pedagogy.
