GALERIA SENDA

YAGO HORTAL

Biography

Yago Hortal (Barcelona, 1983) uses an intense chromatic palette and a great variety of random shapes that lead the eye across the canvas and evoke a lively sensation of movement in the representation. The precise transfer of his gestures to the canvas and the perceptible evidence of a working methodology are attributes of a neat and organised execution, of an abstract way of expressing covered by a wide mastery of pictorial resources. After his last exhibitions at galeria SENDA in Barcelona, Yago Hortal has participated in three solo exhibitions in Salzburg, Vienna and Istanbul, Turkey.

He studied Fine Arts at the University of Barcelona and the University of Seville. In 2007, a year after graduating, he won the 49th Young Painting Prize. His work is part of private and public collections such as MAC - Museum of Contemporary Art Gas Natural Fenosa; Vilacasas Foundation; Olorvisual Collection; Banc Sabadell Foundation among others.
