

BARCELONA GALLERY WEEKEND 2021

GALERIA SENDA - LAB36

BEA SARRIAS

Biography

Bea Sarrias (Barcelona) has carried out her pictorial work in this city, where she has found the themes and places that have given rise to the most significant lines of her artistic work. All her work has been developed through painting, using a realist technique that finds its main references in 20th century American realism, from where she is interested in the modernity of conceptual terms and pays attention to the careful handling of perspective, light, colour and a clean brushstroke in formal terms.
