ÀNGELS BARCELONA DAVID BESTUÉ Biography

David Bestué (Barcelona, 1980) is interested in the relationship between text, sculpture and architecture. His practice experiments with ideas taken from poetry, art history and architecture, testing out how far they can be pushed both literally and conceptually. By making small changes to public and domestic scenarios, his works create absurd situations that question our conventions of behavior, and seek to establish temporary, fragile links between permanent forms and the presence of transient elements, both human and inanimate in the space.
